Institutional Performance Evaluation (IPE)

In accordance with the HEC IPE Manual, the QAA-HEC conducts the Institutional Performance Evaluation (IPE) of all universities and institutes.

The University/Institute Portfolio Report (U/IPR), which contains information and data concerning the Eleven (11) Standards, is to be prepared.

The U/IPR, after completion and review, is submitted to the QAA-HEC that forms the IPE Review Panel (IRP) comprising senior academicians and QEC/QAA personnel.

The IPE Review Panel (IRP) follows a set schedule when visiting the University or Institute for three days. In addition to reviewing the documentation, the IRP interacts with students, faculty, deans, chairs, and heads of departments while visiting the library, classrooms, labs, and other facilities. Following HEC approval, the report is handed in to the university or institute. In collaboration with the relevant departments, the QEC drafts the Action Plan and executes the necessary follow-up tasks. In case, if there is no QAA-HEC visit, the University or Institute can still use the Self-IPE practice.
